Mr. Fuhong Deng/ Mr. Zhiguang Huang.
RE: Electroflow Energy-Saving System

Dear Mr. Deng/ Mr. Huang;

Our company has used your ElectroFlow Energy-Saving System at Shaijin for a year. Your system is very good at Energy-Saving, power quality improvement and voltage stabilizing. Thanks very much. We will continue using your system in our new factories.

Best regards,

林國雄

About: ElgetroFlow System

Thank you for using our system. Our engineers Mr. Huang and Lee tested the effects of ElgetroFlow "ON", and "OFF" on your electricity. Attached, is the test results and maintenance effects report. Following is the list of key effects:

1. 減低千伏安需求

配電線路	電力富投入	電力富退出	減低千伏安需求
1F	218 KVA	308 KVA	90 KVA
2F	129 KVA	139 KVA	10 KVA

2. 減低用電量

配電線路	電力富投入	電力富退出	節省率
1F	181.25 KWH	197.6 KWH	8.27%
2F	91.96 KWH	100.5 KWH	8.5%

3. 功率因數提高 --- 電力富使用後功率因數提高至 98%

4. 減低電流諧波

配電線路	電力富投入	電力富退出
1F	13.5%	53.7%
2F	9.9%	11.6%
