Energy Saving and Power conditioning system/Equipment certification

System/Equipment Tested

1. **Brand Name:** ElectroFlow System
2. **Type:** Energy Saving and Power Conditioning
3. **Model:** K1
4. **Specifications:** 415 V, 50 HZ, 1000 Amp.
5. **Manufacturer:** Electenergy Technologies, Inc., U.S.A
6. **Test Date:** 10 May, 2000

After detailed inspection and on-site tests of the system installed at Sunon Toys Mfg., we have concluded and certify that the ElectroFlow system installed at the above site has performed energy savings(Kwh) of 12.12%, and at the same time improved power factor to over 95%, reduced line current, improved voltage stability, and overall power quality.
